Experience

Software Engineer 2 — Wayfair

DECEMBER 2018 – MAY 2020

Developed a mobile-friendly React SPA, allowing contractors to apply to work for Wayfair Home Services.

Worked on a Python/Flask service to integrate a new 3rd party service provider.

Implemented a C# .NET API for determining the best SKU for a given product, allowing us to deprecate a legacy stored procedure.

Mentored junior developers in the Wayfair Labs program in full-stack development, leading them in exercises covering MVC patterns, React and version control with git.

Senior Front End Engineer — TandemSeven

JANUARY 2018 – NOVEMBER 2018

Developed a React SPA for a TV & Movie streaming service.

Software Engineer — MIT Technology Review

JUNE 2015 – SEPT 2017

Worked with outside design firm to implement a redesign of [MIT Technology Review](#) using Node.js and ES6.

Designed responsive images API to provide multiple resolutions and crops of photographic imagery.

Software Engineer Co-op — EverTrue

JANUARY 2014 – JULY 2014

Developed Ruby on Rails app for displaying landing pages for EverTrue's mobile applications.

Worked on a React SPA admin interface for EverTrue mobile applications.
